

WEEE Statement (Waste, Electrical and Electronic Equipment)

The WEEE directive places an obligation on all EU-based manufacturers and importers to take-back electronic products at the end of their useful life. Plasmon accepts its responsibility to finance the cost of treatment and recovery of redundant WEEE in accordance with the specific WEEE recycling requirements.

The symbol (shown below) will be on Plasmon products and packaging from 13th August 2005, which indicates that this product must NOT be disposed of with other waste. Instead it is the user's responsibility to dispose of their waste electrical and electronic equipment by handing it over to an approved reprocessor, or by returning it to Plasmon for reprocessing. For more information about where you can send your waste equipment for recycling, please contact your local city office or one of Plasmon's local sales offices.
